Cloud-Based Tool & Machinery Tracking

Owned and Operated by Grimaldi and Paul, Inc.

Positions

Lead iOS Engineer, Lead Backend Developer, CEO, Founder

We set out to eliminate the hunt for the right machinery, tools, accessories, and safety gear in a fast-paced environment.

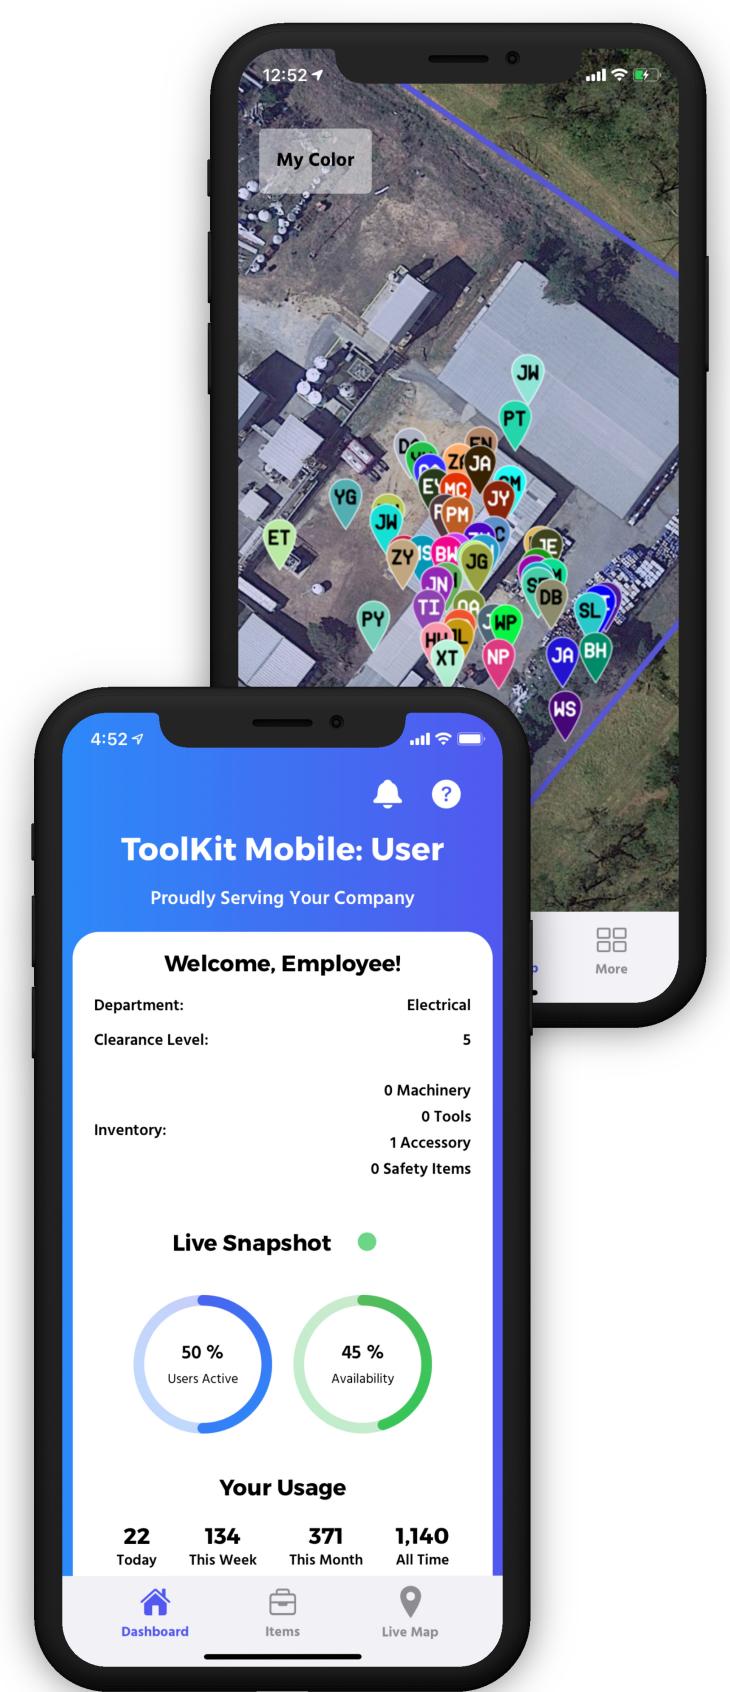

While other solutions require an array of hardware devices, ToolKit Mobile intelligently leverages the services already available on user's smartphones.

HACKATHONS

Pitt Challenge 2019 - Participant

IBM BlueHack 2019 - Member of 4th Place Winning Team "Phoreign Pharm"

Our team utilized "Design Thinking" to conceptualize and prototype a mobile application for travelers and non-native speakers to scan and translate the active ingredients and directions for over-the-counter medications.

WEB DEVELOPMENT

centralcoastfilter.com - Corresponded with the owner to ensure a visually simple and easily navigable informational website. Introduced employee email accounts, company-wide. Setup, technical support, and training for Microsoft Outlook, Volusion, and Shopify.

sprayboothfiltersandsupply.com - Researched, fulfilled, and launched a 1250 product (and growing) filter store with BigCommerce to sell their products online for the first time. Migrated products and past orders to Volusion.

industrialfiltersco.com - Narrowed best-selling products and bulk-pricing promotions from SBFS into a 300 product mini-sister-store.

pacificpaintusa.com - Investigated, developed, designed, and launched an automotive paint and supply store with Shopify.

mervmasks.com - Quickly developed and launched a COVID-19 facemask store in response to the initial closures in March 2020.
